Good morning Paul,

I have escalated your issue of being locked out of your portal over the weekend, Mart did go ahead and reset your password yesterday per my request as we discussed over the phone. However at this time you are on a "no work hold" due to your workers comp expiring. In order to return to working duties you do need to correct this matter. Has this been corrected, if so please have your insurance liaison outreach Rebecca to get that squared away? Once we have received confirmation this had been address and corrected on Marts end we will reach to you to let you know the next steps to get you back and operational for Mart.

Thank you,

*Jessica Champagne

Hi, Vendor could not access the portal because he is marked as -3 in names due to him being on hold since April, he is not allowed to resume work until a full insurance review is completed.

Thank you  
Stephanie
